

We are hiring!  
**QUALITY ENGINEER (H/F)**

 Liège (Belgium)

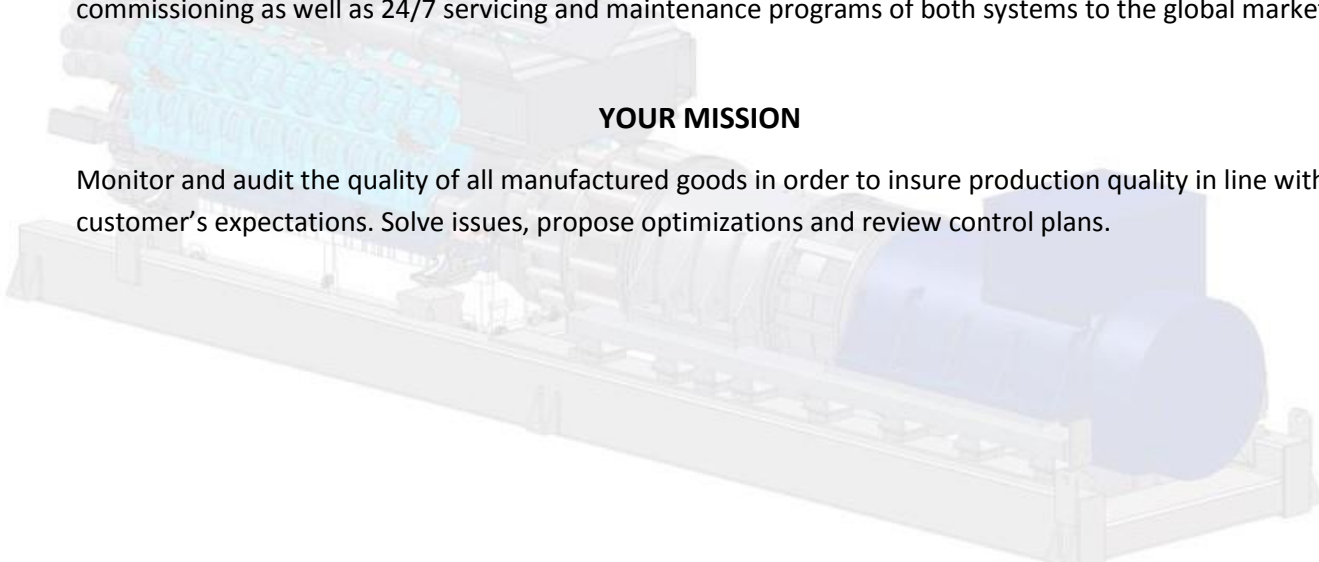

### CONTEXT

EURO-DIESEL is a global turnkey Diesel Rotary UPS (DRUPS) systems provider who aims to secure power supplies and ensure business continuity worldwide by providing innovative quality power solution and unparalleled service. Established in 1989 in Belgium, EURO-DIESEL has grown in size and in revenue and has established subsidiary offices and distributor partnerships in major parts of the world today.

Besides the provision of the NO-BREAK KS® systems, the company also supplies the design, installation, commissioning as well as 24/7 servicing and maintenance programs of both systems to the global market.

### YOUR MISSION

Monitor and audit the quality of all manufactured goods in order to insure production quality in line with the customer's expectations. Solve issues, propose optimizations and review control plans.

## MAIN TASKS

- Lead quality projects including internal and external non-conformities resolution.
- Optimize production processes and update documents accordingly.
- Supervise and optimize control plans, develop new testing when required.
- Determine quality improvements based on statistical analysis of productions quality.
- Train work force on quality and lean topics.
- Insure smooth transfer from R&D/technical department to production.

## PROFILE

- An engineering degree preferably in electro-mechanics or mechanics.
- Minimum 3 years of experience in a quality related position.
- Knowledge of problems solving methodologies, Six Sigma Green or Black Belt is a plus.
- Fluent English. Good knowledge of French.
- Problem solver, good communicator, likes to take initiatives, persistent.

## OUR OFFER

- The opportunity to join and evolve in an established, yet innovative and expanding company, active at the global level in the development of high-tech products.
- The possibility to build a quality control system and to have direct impact on the production and company performance.
- A mix of short- and long-term projects.
- A salary concomitant with your level of experience, backed with an attractive fringe benefits package.

To apply, send your CV and cover letter to [jobs@euro-diesel.com](mailto:jobs@euro-diesel.com).

We guarantee strict confidentiality in process applications.
