

We are hiring!
SENIOR PROJECT MANAGER (M/F)

📍 Liège (Belgium)

CONTEXT

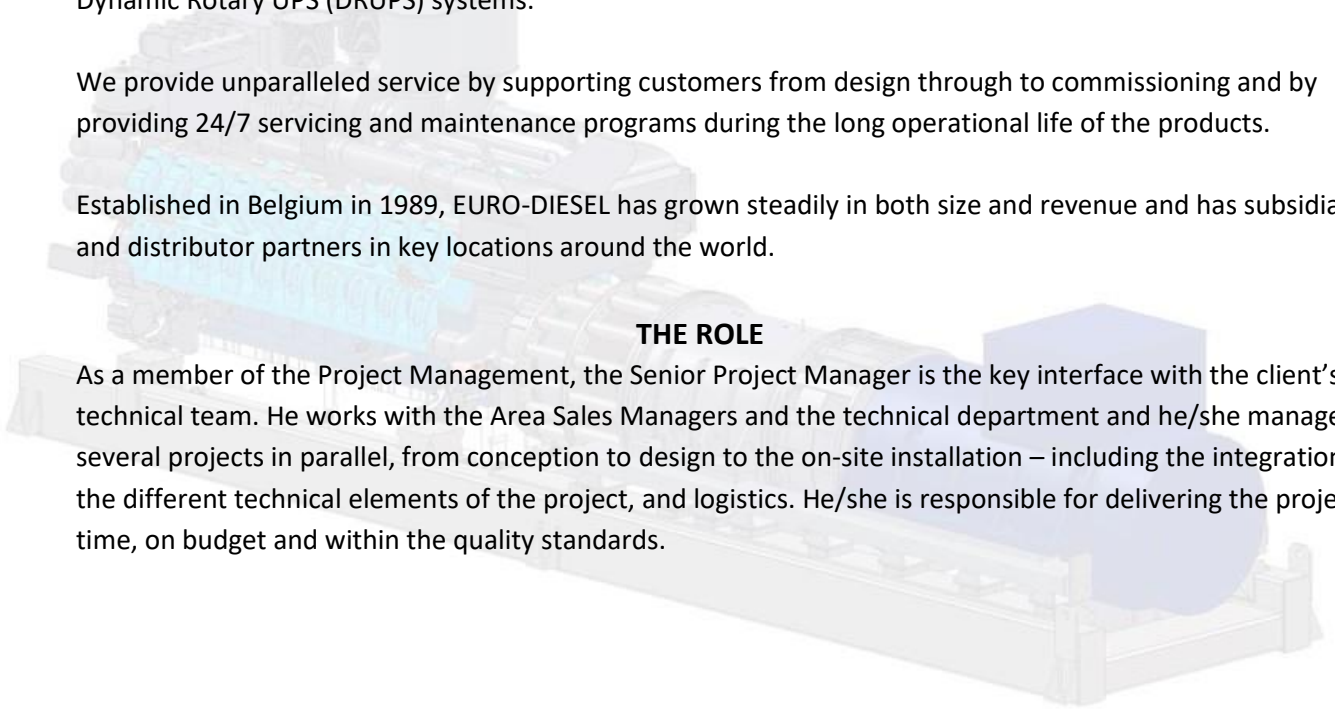

EURO-DIESEL is a turnkey critical power continuity provider. Our mission is to secure power supplies and ensure business continuity to critical applications worldwide by providing innovative, resilient power solutions with our Dynamic Rotary UPS (DRUPS) systems.

We provide unparalleled service by supporting customers from design through to commissioning and by providing 24/7 servicing and maintenance programs during the long operational life of the products.

Established in Belgium in 1989, EURO-DIESEL has grown steadily in both size and revenue and has subsidiaries and distributor partners in key locations around the world.

THE ROLE

As a member of the Project Management, the Senior Project Manager is the key interface with the client's technical team. He works with the Area Sales Managers and the technical department and he/she manages several projects in parallel, from conception to design to the on-site installation – including the integration of the different technical elements of the project, and logistics. He/she is responsible for delivering the projects on time, on budget and within the quality standards.

KEYS TASKS

- Designing and developing the project planning as a whole (including specific technical components such as motors and ventilators) in collaboration with the departments internally concerned.
- Contacting the suppliers if necessary in order to specify the appropriate product, on-site installation, and product conformity.
- Confirming orders, managing key project milestones (receipt of components and equipment, overseeing production etc.) and preparing internal documents.
- Overseeing Industrialization and testing.
- Organizing packaging and delivery of the integrated solution.
- Managing the whole installation on-site.
- Taking charge of invoicing, budget control and timely remittance of payments
-

YOUR PROFILE

- Master in Engineering (Civil or Industrial) Electric, Electromechanical or Mechanical.
- Extensive experience (10 years) in project management and in “on-site” installation on an international level.
- Perfect command of English.
- Result oriented.
- Autonomous, proactive attitude, rigorous and tenacious.
- Interested in multifaceted challenges.
- Available to travel 25% of working time.
- Able to manage different types of issues.
- Analytical, synthetic and sense of decision.

OUR OFFER

- The opportunity to join and evolve with an established, yet innovative and expanding company, active at a global level
- The opportunity to build a quality system and to have direct impact on production and the overall performance of the company
- Work on a mix of short and long-term projects
- Salary commensurate with your level of experience plus benefits package

To apply, please send your CV and covering letter to: jobs@euro-diesel.com.

Applications will be treated in the strictest confidence.
